13. Teaching Language

Portuguese

14. General Objectives

To contribute to a basic understanding of Administrative Law, promoting knowledge of the Portuguese system of administrative organisation and, in particular, the general regime to which administrative institutions are subject.

15. Specific Objectives

To promote the learning of the concepts, principles and legal solutions considered most relevant for the understanding of the organisational reality and of a common background for the regulation of Public Administrations in the Portuguese legal system and in the European context.

16. Skills to be acquired

Understanding the logic of administrative organisation that prevails in particular in portuguese legal system, enabling students to know the statute of the administrative institutions , to solve legal-practical issues related to the organisation and functioning of Public Administrations and to develop specialised studies.

17. Teaching Methodology

The teaching will be developed in theoretical and practical aspects, framing in collective teaching sessions the individual learning efforts to be carried out by the students .
