1st

7. Type of Curricular Unit / Semester

1st Semester

UNIVERSIDADE LUSÍADA
LISBOA

8. Class type and workload (work time)

Theoretical classes:	30,00
Practical classes:	
Theoretical-Practical Classes	
Tutorial Guidance:	20,00

9. ECTS Credits

6,00

10. Scientific Area Coordinator

11. Regent

Prof. Doutora VANDA SOFIA BRAZ RAMALHO

12. Assistants

ANA RITA VENTURA VERÇAS

13. Teaching Language

Portuguese

14. General Objectives

Identify the main demographic problems of contemporary societies and their challenges for social workers intervention.

15. Specific Objectives

- Know the demographic concepts and theories;
- Understand the essential population issues and their implications for the territory;
- Characterize the population structure and its movements;
- know the main transformations of occupation of the Portuguese territory and their implications on territorial competitiveness;
- Know and reflect on the contemporary demographic problems and analyses the challenges for social intervention.

16. Skills to be acquired

At the end of the semester, students should be able to draw a demographic profile by mastering some demographic calculation instruments. Should also be able to identify the major demographic and territorial dynamics of Portuguese society and its challenges for social intervention.

17. Teaching Methodology

The syllabus will be exposed in theoretical classes. Exercises will be performed in practical classes (OT), analyzing and interpreting data or calculating population indices/rates. Results will be used in reflection on the demographic and territorial problems and challenges faced by modern societies.
